### Supramax Commentary

Supramax paper rates came under pressure in early trading with Oct first printing \$10950. Following another strong index, +104, we found some support in the afternoon session and Oct retraced to close \$11150. Q4 made up most of the day's volume, trading \$10800-\$10850 and Q1 printed \$8100. We close down on the day but with some bid support at these lower levels. Have a nice evening.
