**NOLA FUTURES & SWAPS**

**UREA**

NOLA UREA continues to remain thin this week with spread interest continuing to see interest. The SEPT/OCT spread traded at -5 today in line with last done. The physical market was quiet today.

**INTERNATIONAL FUTURES**

International paper markets were largely checked out today. Not to be unexpected, with much of the European market on holidays, but still a slowdown from earlier in the week. Values are marked flat on the day – hoping for a pick up in activity ahead of the weekend!
