Market Commentary / Recent Trades

Iron ore futures rebounded from its previous drop on expectations for steel demand in the infrastructure sector after Chinese New Year. Sentiment for post-Winter Olympics demand remained firm even though trade participants had mostly completed restocking activities ahead of the Spring Festival, leading to increased interests in March arriving cargoes, when steel demand for infrastructure is expected to increase. China's central bank is also expected to take more steps to ensure economic stability in the second half of the year, while investors are looking forward to increased consumption after New Year's celebrations next week.

Iron Ore showed as strong recovery off the back of yesterday's tumble, rallying throughout the Sing morning. The recovery did stutter during London morning DCE session however, as prices retreated heading into close to hit lows of \$135.10, \$1.50 off the session highs reached early on. Prices rallied from there to see Iron Ore close out at \$136.30 to modest gains. Majority of focus was on the front month outright, slightly bid heavy.

Iron ore futures curve and closing prices

市场评论 / 近期交易

受春节后基建行业钢材需求预期的影响，铁矿石期货从此前的下跌中反弹。尽管交易者大多在春节前完成了补货活动，但冬奥会后需求的市场情绪依然坚挺，导致对3月份到货的兴趣增加，届时对基础设施的钢材需求预计将增加。预计中国央行还将在下半年采取更多措施确保经济稳定，而投资者期待下周新年庆祝活动后消费增多。

铁矿石在昨天的暴跌之后显示出强劲的反弹，整个亚洲早间都在上涨。然而，伦敦早间的反弹一度停滞不前，价格回落至今日低点135.1美元，较早盘触及的高点低1.5美元。价格随后上涨并收于136.3美元，略有涨幅。市场大部分焦点集中在即期合约，买盘兴趣浓厚。
