Fertilizer Derivatives End of Day Report

FUTURES MARKET COMMENTARY

Values on futures were mostly sideways today with Q3 NOLA UREA trading in line with where value was seen on Friday. In the physical market, barge values are up slightly trading last at \$485 that's up \$10 or so from last done on Friday. Not all markets were stable, we did see a large drop in value in the NOLA UAN market with August trading at \$425 down \$75 from where we last saw value at cob on Friday. The INTL markets are mostly sideways today.
