### Supramax Commentary

A volatile day for Supramax paper, with the rates coming under pressure in early trading and Q3 and Q4 slipping to respective lows of \$20200 and \$19500. Despite a negative index buyers returned in the afternoon session, and we retraced some losses but still closed down on the day. Have a nice evening.

### Handysize Commentary

Handysize paper dipped in early trading with Q3 printing \$19500, before retracing to close flat on the day.
