#### 24 April 2023

### Market Commentary / Recent Trades

Iron ore futures under pressure of high iron ore output with<br/>prices falling toward \$100 during Asian morning session<br/>today. BHP releases its iron ore production reached 191.7<br/>million tonnes for first nine months ended Mar, up 1.3% from<br/>same period last year. Meanwhile, no signs of robust steed<br/>demand surfaced coupled with market activities expected to<br/>be muted next week due to the Golden Week holiday. In the<br/>futures market, May traded from \$105.90 down to the low<br/>\$103, then recovered a dollar before the close. Likewise Jun<br/>lost over \$3 to just above \$100 while Jul broke the \$100<br/>mark.\$100<br/>state
