

Fertilizer Derivatives End of Day Report

FUTURES MARKET COMMENTARY

NOLA

A quiet day in Nola with no CME trades as Urea sentiment seems softer today. No urea barges reported to have traded at the time of writing. On the phosphate side, there was more interest for August barges, sticking at the same level of \$540, same price as yesterday's barge. There was also September interest, around the \$540 - \$550 range but no trades reported yet.

INTL

A quieter end to the week in the international market. Which saw things turn softer again on thin activity in futures and a lack of demand in the physical. Hope you all have great weekend. Speak Monday!
