18 December 2024

Capesize Commentary

Start to the day saw narrow intraday trading ranges as we remained rangebound in the morning with January trading between trades at closing levels - Jan trading at \$7150 and \$8800 before \$9900 and \$10000 while the Q1 trades \$10550. The afternoon saw eventually pushing to \$7800 and \$8400 respectively. Q2 Pmx bid support in the afternoon as January and Q1 trades up to \$10250 and \$11200 in the evening with Q2 trading up to \$16900. Further out saw the Cal25 trade at \$17600 and bid on as we close the day bid at the day's highs.

Panamax Commentary

Some underlying bid support evident on Pmx today with the first pushed from \$10700 and getting paid over \$11000 by close. Q3and Q4 was paid \$10825 and \$10850 in early trading before again pushing higher as the Cal25 was better bid. The index came in at -\$11 which represents a slowdown in the sell off recently seen. It was a grind today with a gradual push in rates, but liquidity not too bad given the time of year. Have a very good evening.
