Lithium Hydroxide Commentary

Market has been very thin due to Chinese New Year this week. We have seen some interest across the curve, mainly in 2025 quarters. Although we have found 2-way interest, very few prices have ended up closing and trading. The only LH tenor to trade today was Q225 at 10.50. All day it traded in 25tpm in a few clips. The curve remained broadly unchanged, with only Q226-Q326 moving 0.5% lower on the day.
