## Market Commentary / Recent Trades

Singapore swaps opened firm at \$97.55 but gradually softened throughout the day. The morning session closed at \$95.30, and prices eventually dipped to an intraday low of \$94.35 in the afternoon. The pullback in flat price triggered active outright trading, with May seeing the bulk of the volume. Q1 traded around \$90.50 on a 45kt clip, while the afternoon session saw continued outright interest, including Q3 clips of 10kt and notable buying in Cal 2027.

In spreads, early Singapore trading saw Q2/Q1 change hands at \$6.60 for 20kt. The structure continued to compress later in the day, with Jun/Q4 trading at \$3.55, May/Q2 at \$7.75 (45kt and 15kt respectively), and Cal 26/27 at \$5 in smaller volumes.

Spread compression was more evident in the latter half of the session, especially on deferred structures. Q3/Q4 was heavily offered and traded down to \$1.75 across multiple 15kt clips. Cal 26/27 continued to move lower, printing at \$4.50 on decent volume.
