| <p>Another big day for the Cape market today as the curve continued to enjoy gains. However, sellers were more prominent to start with as Feb was sold down to \$17,500, March saw early selling down to \$23,250, and Q234 was sold down to \$27,250. The early selling was quickly met with resistance and, alongside a positive index (+\$444), the curve saw a sharp rise despite a slightly quiet few hours at the start of the afternoon session. Feb then reached a high of \$18,250, while March peaked at \$24,000. Further out, Cal27 reached a high of \$24,500 as gains extended into the deferred contracts. Overall, another strong day for the Cape market. Have a good weekend.</p> | <p>Another active day on Panamax paper as positive Atlantic momentum continued to support optimism, with the curve extending its rise. A strong index (+\$535) contributed to solid gains throughout the day. Feb reached a high of \$15,200, March traded up to \$17,200, and Q2 reached a high of \$17,000. Strong volume underpinned what was a significant move higher for Panamax, although the close brought some additional offers and we drifted slightly off the highs. Have a good weekend.</p> |
