Exports from Guinea's Simandou iron ore project climbed sharply in May, six months after its first shipment to China, indicating the continued ramp-up of the high-grade mine. Shipments from Morebaya port reached 2.2 million tons compared with 1.3 million tons in April, according to Kpler data. The project is expected to produce up to 120 million tons annually at full capacity, positioning it as a major force in the global iron ore market.
